

# e-Glide Elliptical

## COMMERCIAL ELLIPTICAL FEATURES

- Patent-Pending Direct Drive System
- Large Foot Pedals with Slip-Resistant Design and Sweat Drain
- Heavy Gauge Steel Frame
- Durable Powder-Coated Paint
- Easy-To-Use Console with Micro-Adjust Tension Resistance
- Telemetric Heart Rate
- Commercial Warranty

The **e-Glide** Commercial Elliptical is designed specifically for group exercise workouts. The patent-pending direct drive system creates the smoothest possible elliptical motion. Your clients will feel as if they are actually floating above the **e-Glide**. This is created by the combination of the direct drive system, perfect gear ratio, optimum stride length, and ergonomic pedal placement. The addition of solid steel machined pulleys and automotive-grade Poly-V belts assures it will hold up to the toughest environments. It's all in the details.

Patent-Pending Direct Drive System

## SPECS

### **e-Glide** Elliptical

4-Window LCD

Time, RPM,  
Distance, Heart Rate

Telemetric

Variable Resistance

Magnetic Resistance w/  
Variable Adjustable Knob  
and Hand Brake

Patent-Pending Direct Drive

Multi-Position

Mechanical Parts: 10 Years  
Electronics: 10 Years  
Wear Items\*: 6 Months  
Labor: 1 Year

\*Wear Items include:  
Rubber Hand Grips,  
Pedals, Console Overlay,  
and Drive Belts

The simple **e-Glide** console is easy to use and easy to read. Simply set the workout time and get started. The tension is manually adjusted by turning the micro-adjustment knob below the console. This moves the rare-earth magnets towards the flywheel to increase resistance. The combination of these magnets and perfectly balanced flywheel (with most of its weight concentrated in the outer perimeter) help create the smoothest elliptical feel. Combine this with the ergonomically placed foot pedals and the direct drive, and your clients won't just be using the **e-Glide** for a group exercise class, but also for their regular workouts.

When your clients achieve their perfect RPM, they will begin to experience the **e-Glide's** characteristic floating effect, which will keep them working out longer and thus achieving their fitness goals.
